

# All in One Hacking tool For Hackers

license MIT issues 11 open issues 279 closed Python 3 forks 3.8k stars 34k last commit july hits 1023866  
platform Linux | KaliLinux | ParrotOs

Install Kali Linux in WIndows10 Without VirtualBox [YOUTUBE](#) or use Docker

## Update Available V1.2.0

---

- [✓] Installation Bug Fixed
- [x] Added New Tools
  - [x] Reverse Engineering
  - [x] RAT Tools
  - [x] Web Crawling
  - [x] Payload Injector
- [x] Multitor Tools update
- [X] Added Tool in wifijamming
- [X] Added Tool in steganography

## Hackingtool Menu

---

- [Anonymously Hiding Tools](#)
- [Information gathering tools](#)
- [Wordlist Generator](#)
- [Wireless attack tools](#)
- [SQL Injection Tools](#)
- [Phishing attack tools](#)
- [Web Attack tools](#)
- [Post exploitation tools](#)
- [Forensic tools](#)
- [Payload creation tools](#)
- [Exploit framework](#)
- [Reverse engineering tools](#)
- [DDOS Attack Tools](#)
- [Remote Administrator Tools \(RAT\)](#)

- [XSS Attack Tools](#)
- [Steganography tools](#)
- [Other tools](#)
  - [SocialMedia Bruteforce](#)
  - [Android Hacking tools](#)
  - [IDN Homograph Attack](#)
  - [Email Verify tools](#)
  - [Hash cracking tools](#)
  - [Wifi Deauthenticate](#)
  - [SocialMedia Finder](#)
  - [Payload Injector](#)
  - [Web crawling](#)
  - [Mix tools](#)

## Anonymously Hiding Tools

- [Anonmously Surf](#)
- [Multitor](#)

## Information gathering tools

- [Network Map \(nmap\)](#)
- [Dracnmap](#)
- [Port scanning](#)
- [Host to IP](#)
- [Xerosploit](#)
- [RED HAWK \(All In One Scanning\)](#)
- [ReconSpider\(For All Scanning\)](#)
- [IsItDown \(Check Website Down/Up\)](#)
- [Infoga - Email OSINT](#)
- [ReconDog](#)
- [Striker](#)
- [SecretFinder \(like API & etc\)](#)
- [Find Info Using Shodan](#)
- [Port Scanner - rang3r \(Python 2.7\)](#)
- [Port Scanner - Ranger Reloaded \(Python 3+\)](#)

- [Breacher](#)

## Wordlist Generator

- [Cupp](#)
- [WordlistCreator](#)
- [Goblin WordGenerator](#)
- [Password list \(1.4 Billion Clear Text Password\)](#)

## Wireless attack tools

- [WiFi-Pumpkin](#)
- [pixiewps](#)
- [Bluetooth Honeypot GUI Framework](#)
- [Fluxion](#)
- [Wifiphisher](#)
- [Wifite](#)
- [EvilTwin](#)
- [Fastssh](#)
- [Howmanypeople](#)

## SQL Injection Tools

- [Sqlmap tool](#)
- [NoSqlMap](#)
- [Damn Small SQLi Scanner](#)
- [Explo](#)
- [Blisqy - Exploit Time-based blind-SQL injection](#)
- [Leviathan - Wide Range Mass Audit Toolkit](#)
- [SQLScan](#)

## Phishing attack tools

- [Setoolkit](#)
- [SocialFish](#)
- [HiddenEye](#)
- [Evilginx2](#)
- [I-See\\_You\(Get Location using phishing attack\)](#)

- [SayCheese \(Grab target's Webcam Shots\)](#)
- [QR Code Jacking](#)
- [ShellPhish](#)
- [BlackPhish](#)

## Web Attack tools

- [Web2Attack](#)
- [Skipfish](#)
- [SubDomain Finder](#)
- [CheckURL](#)
- [Blazy\(Also Find ClickJacking\)](#)
- [Sub-Domain TakeOver](#)
- [Dirb](#)

## Post exploitation tools

- [Vegile - Ghost In The Shell](#)
- [Chrome Keylogger](#)

## Forensic tools

- [Autopsy](#)
- [Wireshark](#)
- [Bulk extractor](#)
- [Disk Clone and ISO Image Acquire](#)
- [Toolsley](#)

## Payload creation tools

- [The FatRat](#)
- [Brutal](#)
- [Stitch](#)
- [MSFvenom Payload Creator](#)
- [Venom Shellcode Generator](#)
- [Spycam](#)
- [Mob-Droid](#)
- [Enigma](#)

## Exploit framework

- [RouterSploit](#)
- [WebSploit](#)
- [Commix](#)
- [Web2Attack](#)

## Reverse engineering tools

- [Androguard](#)
- [Apk2Gold](#)
- [JadX](#)

## DDOS Attack Tools

- [SlowLoris](#)
- [Asyncrone | Multifunction SYN Flood DDoS Weapon](#)
- [UFOnet](#)
- [GoldenEye](#)

## Remote Administrator Tools (RAT)

- [Stitch](#)
- [Pyshell](#)

## XSS Attack Tools

- [DalFox\(Finder of XSS\)](#)
- [XSS Payload Generator](#)
- [Extended XSS Searcher and Finder](#)
- [XSS-Freak](#)
- [XSpear](#)
- [XSSCon](#)
- [XanXSS](#)
- [Advanced XSS Detection Suite](#)
- [RVuln](#)
- [Cyclops](#)

## Steganography tools

- [SteganoHide](#)
- [StegnoCracker](#)
- [StegoCracker](#)
- [Whitespace](#)

## Other tools

### SocialMedia Bruteforce

- [Instagram Attack](#)
- [AllinOne SocialMedia Attack](#)
- [Facebook Attack](#)
- [Application Checker](#)

### Android Hacking tools

- [Keydroid](#)
- [MySMS](#)
- [Lockphish \(Grab target LOCK PIN\)](#)
- [DroidCam \(Capture Image\)](#)
- [EvilApp \(Hijack Session\)](#)
- [HatCloud\(Bypass CloudFlare for IP\)](#)

### IDN Homograph Attack

- [EvilURL](#)

### Email Verify tools

- [Knockmail](#)

### Hash cracking tools

- [Hash Buster](#)

### Wifi Deauthenticate

- [WifiJammer-NG](#)
- [KawaiiDeauther](#)

### SocialMedia Finder

- [Find SocialMedia By Facial Recognition System](#)
- [Find SocialMedia By UserName](#)
- [Sherlock](#)
- [SocialScan | Username or Email](#)

### Payload Injector

- [Debinject](#)
- [Pixload](#)

### Web crawling

- [Gospider](#)

### Mix tools

- Terminal Multiplexer

## Installation For Linux linux

---

**!! RUN HACKINGTOOL AS ROOT !!**

**Steps are given below :**

---

### Step : 1 Download hackingtool

---

```
git clone https://github.com/Z4nzu/hackingtool.git
```

### Step : 2 Give Permission to hackingtool

---

```
chmod -R 755 hackingtool
```

### Step : 3 Move to hackingtool directory

---

```
cd hackingtool
```

## Step : 4 Run hackingtool

---

```
sudo bash install.sh
```

## Step : 5 For installing tools in directory

---

```
sudo hackingtool
```

## Use image with Docker

---

### Run in one click

```
docker run -it vgpastor/hackingtool
```

### Build locally

```
docker-compose build
```

```
docker-compose run hackingtool
```

- If need open other ports you can edit the docker-compose.yml file
- Volumes are mounted in the container to persist data and can share files between the host and the container

**Thanks to original Author of the tools used in hackingtool**

Important **notice**

**Please Don't Use for illegal Activity**

### To do

- [ ] Release Tool
- [ ] Add Tools for CTF
- [ ] Want to do automatic

## Social Media :mailbox\_with\_no\_mail:

Your Favourite Tool is not in hackingtool or Suggestions Please [CLICK HERE](#)

Don't Forgot to share with Your Friends

The new Update get will soon stay updated

Thank you..!!
